

Use Case Template:
Journal:

ID:	J001
Title:	Digital journal.
Description:	The purpose of the app is to keep a digital journal. It will keep the journal entries in a simple and easy to use application. It will help all the users follow the council of the prophets and keep a journal.
Primary Actor:	Not sure what goes here
Preconditions:	A priority is that all user’s journals entries are stored securely, login/registration is required. ----- Login: Password: -----
Postconditions:	Return to dashboard: ----- Review Previous Entries ----- Create New Entry -----
Main Success Scenario:	Store new entries and review past entries
Frequency of Use:	It can be used as many times as you want to use it
Status:	Planning/Development
Owner:	Devin McBride
Priority:	1 – (because in need to graduate, this class is my last hurdle)
