Use Case:

ID:	RM01
Title:	Movie Critic
Description:	The purpose of the app is for me and my friends to share our opinion about all the movies that we have seen and tell each other why we liked them or why we thought they were bad.
Primary Actor:	[A person or a software/hardware system that interacts with your system to achieve the goal of this use case.]
Preconditions:	A priority is that we know which user gave each movie its specific rating. Also, it helps us keep track of usage but end users. There are two precondition options the first is login and the second is registration. -------------------- Login: Password: Not a member? Join here! ---------------------
Postconditions:	Peer Reviews ------------------------ Rate Movie ------------------------ Add Movie ------------------------
Main Success Scenario:	1. New Movie is added 2. Rating by user is stored
Frequency of Use:	It can be used to rate once per movie/per user
Status:	Planning/Development
Owner:	Devin McBride
Priority:	1 – (because in need to graduate, this class is my last hurdle)
